

BVRPD Annual Report

Presented to the Buffalo Valley
Regional Police Commission

Chief Paul Yost

2020

This Reporting contains a description of the agency, scope of services, costs, and a summary of both the qualitative analysis of policing services and a quantitative analysis of policing services provided by the Buffalo Valley Regional Police Department during the year 2020.

Executive Summary

The Buffalo Valley Regional Police Department (BVRPD) has completed the Ninth (9th) year of agency operations. This has allowed for the collection of data that supports meaningful comparative analysis of activity and the agency's response to community police service needs.

This annual report is the best means of communicating this information to the public and elected officials of the performance, fiscal effectiveness, and development of agency capabilities for the delivery of high-quality police services.

This report details the BVRPD by an examination of the agency from a perspective of what we have done in the past year and explore where we hope to go in the future in the provision of high-quality police services and the expansion of our community partnerships.

This year has been a challenging one, COVID-19 limited our community outreach and reduced community contacts. The Department had to make many operational adjustments but continued to provide needed services to the community.

We are hopeful to soon again be able to have personal community outreach and interactions. We miss this opportunity.

Chief Paul Yost

Agency Descriptive Summary

The Buffalo Valley Regional Police Department (BVRPD) is a progressive police department consisting of nineteen (17) sworn staff members, and one unsworn administrative assistant that are responsible for the delivery police services and support service functions.

One of the most unique characteristics of the BVRPD is that the agency is a self-contained unit, responsible for the operations, administrative, budget, human resource, fiscal, physical plant, and review functions of the police organization. This structure assures all costs for delivery of police services are realized in the budget and fiscal process and eliminates “hidden costs” for the police service function.

The Agency is housed in a modern facility that is centrally located and is capable of handling future expansion of the BVRPD jurisdiction. The facility incorporates features to accommodate the police mission. The BVRPD police facility includes detention and process facilities featuring private interview rooms with recording capabilities.

The BVRPD utilizes a full range of marked and unmarked police fleet vehicles equipped with current technology to assist in the effective use of tools to maximize the police patrol and visibility of officers, while minimizing the time spent by officers away from the patrol function. The BVRPD fleet is a multi-purpose fleet of eight vehicles, five (5) of which are Sport Utility Vehicles that have all-wheel drive capabilities, to assure delivery of services in a wide variety of weather and topographic environments. In addition, the agency has a special purpose utility vehicle.

Legal Authority

To comprehend the delivery of police services in the regional policing context, the reader must understand that a legal basis exists for such an organization and what these types of organizations are considered under the rules for government in the Commonwealth of Pennsylvania.

Definition - Consolidation of police services require the abolishment of political subdivision boundaries for police services and the unification of existing police forces into one regional police department. The distinctive characteristic of this method of policing is that the operation of the police agency is outside the direct control of any one municipality. The police department operates under the guidance of a regional police commission consisting of elected or appointed officials from each of the participating municipalities.

The 2020 Commissioners were:

- Dr. Jack Malloy, Chairman, (East Buffalo Township)
- Jordi Comas, Vice-Chairman (Lewisburg Borough)
- Kathryn E. Morris, Secretary (Lewisburg Borough)
- Char Grey, Treasurer (East Buffalo Township)
- Judith T. Wagner, Commissioner (Lewisburg Borough)
- Matt Schumacher, Alternate Commissioner (East Buffalo Township)
- Debra Sulai, Alternate Commissioner (Lewisburg Borough)

Legal Authority for Police Consolidation - Section 5 of Article IX of the Constitution of the Commonwealth of Pennsylvania serves as the legal and constitutional basis for consolidation of police services in the state. Section 5 of Article IX states: A municipality by act of its governing body may, or upon being required by initiative and referendum in the area affected shall, cooperate or agree in the exercise of any function, power, or responsibility with or delegate or transfer any function, power or responsibility to, one or more other governmental units including other municipalities or districts, the federal government, any other state, or its governmental units, or any newly created governmental unit.

Act 180, as passed by the General Assembly, and signed into law by the Governor on 7/12/76, serves as the enabling legislation that makes cooperation of public services in the Commonwealth a legal process. Contained in the Act are the provisions for initiating the cooperation and identification of the necessary contents of the agreement. Section 1202, clause 34 and 35 of the Borough Code; Section 1502, clause 53 and 54 of the First-Class Township Code; and Section 702, clause 40 of the Second-Class Township Code also bestow authority upon municipal governments to enter into agreements for the purpose of intergovernmental cooperation.

Under an Intergovernmental Cooperation Agreement, The BVRPD is governed by a body identified as the Buffalo Valley Regional Police Commission. This body consists of two members from each of the participating municipalities, and one at large member. This provides for equal representation of each of the participating entities regardless of size, population, or number of police protection units purchased.

The Chief of Police reports directly to the BVRPD Commission and is responsible for providing accurate and timely reporting on the direction of the agency. This reporting is completed during the monthly meetings of the Commission and entails statistical, operational, municipal time tracking and fiscal reporting.

BVRPD Agency Mission

The mission statement is a brief statement that an organization uses to define the agency core values and mission it intends to accomplish and embrace as the members strive to deliver professional police services. The BVRPD operates in a team-based environment with a chain of command and an emphasis of problem solving and community service.

Mission Statement: *“The Buffalo Valley Regional Police Department is committed to the protection of life and the prevention of crime and disorder. With an emphasis on community policing, we will build partnerships and seek proactive approaches and innovative solutions to address crime and other safety issues in our community, which adversely affect our daily lives. Through prompt, efficient, and courteous service, we will strive towards our ultimate goal of creating a better quality of life for our citizens, visitors and ourselves.”*

BVRPD Agency Values

- Pride
- Respect
- Integrity
- Service

BVRPD Structure

The Buffalo Valley Regional Police Department (BVRPD) is a full-service police agency as defined by the Pennsylvania Department of Community and Economic Development (DCED). This means that the law enforcement agency (LEA) has incorporated within the agency the following elements:

Patrol Function – Performing seamless coverage for police patrol services/ field services on a twenty four-hour basis, seven days a week, three hundred and sixty-five days a year.

Criminal Investigations Function – A dedicated criminal investigations function with agency members designated as being responsible for the follow up function of the investigation of crimes and offenses.

Records and Support Services Function – This is the records and information management and data services component of the agency. This function is responsible for information request fulfillments.

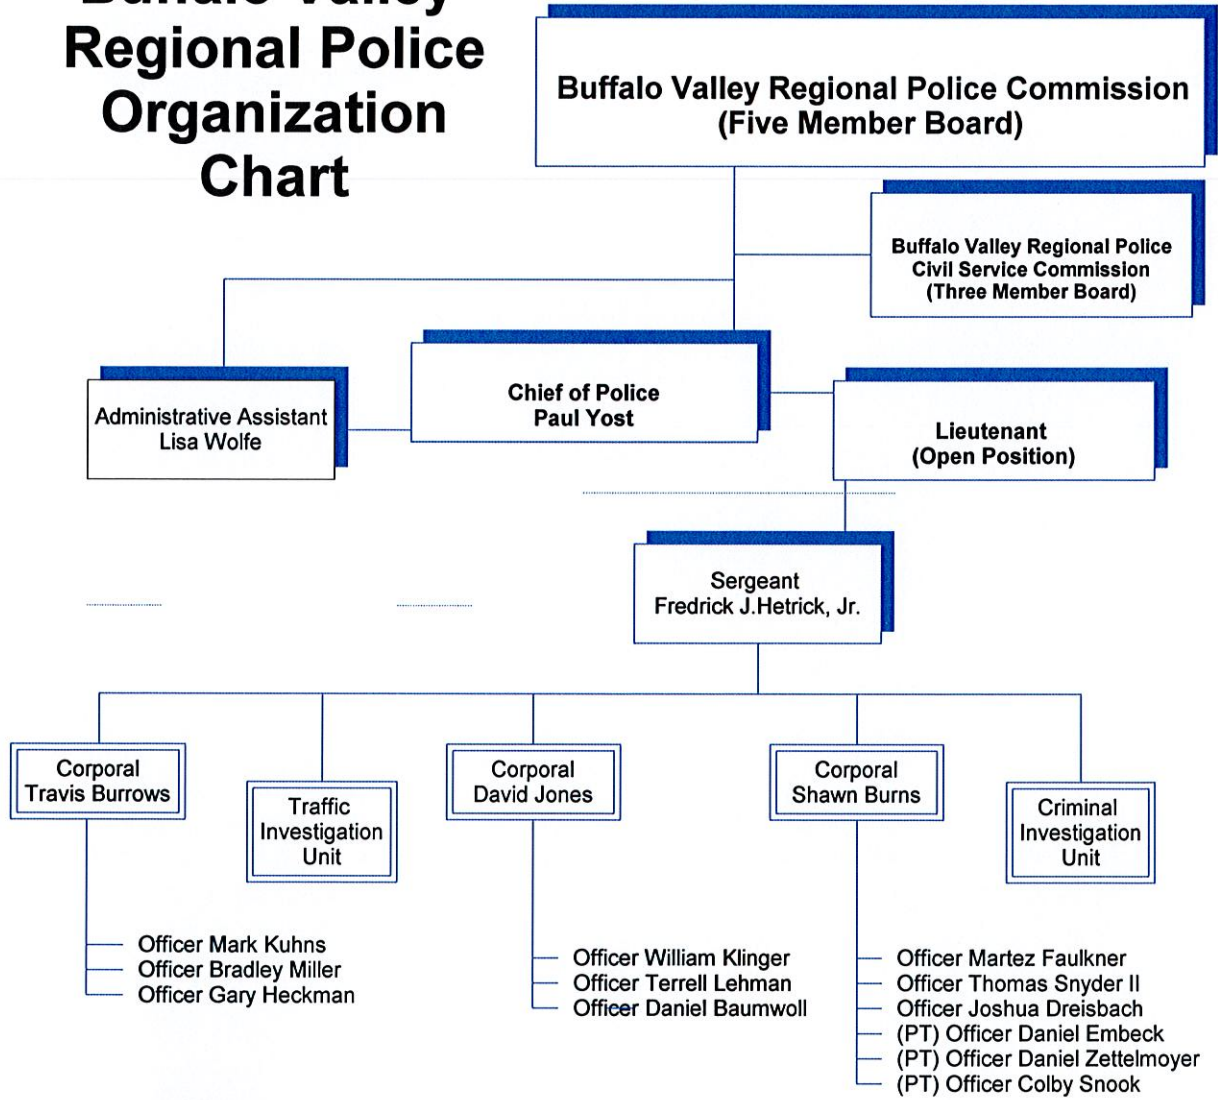

Administrative and Command Function – This function includes the management and direction of the agency from a command and executive function level. This means there is a requirement for the fiscal planning, budget administration, policy development, planning on both the strategic and tactical level and administration of the human resource function of the agency.

Police Protection Unit

The police protection unit is a concept by which various municipalities may purchase police services from the Buffalo Valley Regional Police Department. A police protection unit is equivalent to 10 hours of police service per week. For example, one municipality may purchase 2 police protection units (20 hours of police service per week). While another municipality purchases 25 units (250 hours of police service per week). Each municipality also has 24-hour per day, 7-day per week response to complaints as well as preventive patrols. Clearly, the municipality purchasing 250 hours will have constant coverage, i.e., officers available for response in their municipality 24 hours per day, 365 days per year. The other municipality purchasing 20 hours per week will have officers there mostly during predetermined hours of need; however, with the ability of an officer to respond to emergency calls on a 24 hour per day basis.

January 2021

Buffalo Valley Regional Police Organization Chart

Support Services Unit

The BVRPD currently employs one full time civilian staff member, “Administrative Assistant”, who is responsible for the administration of the records and office functions of the organization. The BVRPD business office is open Monday through Friday from 8:00 AM to 4:30 PM.

Educational Support Services Unit

Officers provide support to the Lewisburg Area School District Police and additional security when requested to the Lewisburg Area School District. We continue to provide educational programs within the District when requested.

Animal Control Services

The BVRPD currently relies on sub-contracted private service who is responsible for the animal control functions of the organization. These services are paid by the participating municipalities and have proven to be an efficient and cost-effective method to handle animal related complaints. When the animal enforcement is not available BVRPD handles the incident.

Field Services - Patrol Operations

Providing Emergency Police Response to the public in seamless coverage of patrol operations and field services on a twenty-four hour, three hundred sixty-five-day basis. Responding to and adjusting to meet the current service demands of the community.

Criminal Investigation Services

Provision for dedicated member(s) with advanced Criminal Investigative Services to the community in our agency’s response to crime its investigation and prosecution.

Commercial Vehicle Enforcement

The Department has two officers certified for Motor Carrier Enforcement. In 2020 the Department conducted 102 Safety Inspections of Commercial Motor Vehicles.

Total 346 Years' experience

This Chart depicts in total BVRPD police officer years of experience. The values were placed into the array and a median value was identified.

Specialized Training and Education of Agency Members

The BVRPD places an emphasis on the education and training of agency personnel. The BVRPD offers a full range of educational benefits to encourage employees to continue in the educational process. In addition to the formal education of agency members, the specialized training extends well beyond the mandatory update education and training component of Twelve (12) hours.

The BVRPD is an organization that recognizes that training on a frequent and regular basis is an absolute necessity to execute a professional police response to community needs. The BVRPD maintains officers with specialized training in the following law enforcement fields:

DUI Operator Identification	Firearms Instructors
Standardized Field Sobriety Testing	Less Lethal Force
Basic Crime Scene Processing	Death investigations
Advanced Crime Scene Processing	Advanced death investigations
Basic Crime Scene Photography	Child Abuse investigations
Latent fingerprint examination	Sexual Assault / Domestic investigations
Live Scan	Identity Theft
NIMS Training	School Safety & Resources
Basic crash investigation	Crash Reconstructionist I
Advanced crash investigation	Crash Reconstructionist II
Large Truck Enforcement (MCSAP)	Police Media Relations
Weapons Mass Destruction	Sexual abuse of children
CLEAN JTAC	SFST Instruction – Chemical Testing
Field Training Officer	Tactical Response Training
Southern Police Institute Command Training	Pennsylvania State University Supervisor & Advance Executive Training

Training & Career Development - Philosophy

The BVRPD understands the need to train officers beyond the minimal required standards as established by the Commonwealth of Pennsylvania for basic training of certified police officers. The agencies level of commitment extends beyond the minimal in-service annual training updates. The BVRPD adheres to the philosophy of providing officers meaningful training that will enhance both the career development of the officer and meeting the needs of the community for the quality and scope of police services being delivered. The BVRPD strongly believes that minimal training equates to minimal performance and sub-standard outcomes.

Firearms Training

Less Lethal Training

2020 Training & Career Development – Summary

Due to Covid-19 restrictions the BVRPD officers were limited in our training opportunities in 2020. All Officers completed their in-service training hours and were able to attend some in person training prior to restrictions being placed on this type of training. We were able to move to some on-line course completions. Required basic level of MPOETC updates and firearms training hours calculated at 340 hours, and 180 hours of training provided in various other subject matter. The BVRPD continues to participate in the “Narcans” (drug response protocols) program requiring updated online training. BVRPD agency members attended training in 2020 in some of the following fields:

- Legal Updates
- Officer Safety Explosive Devices
- Personal Leadership
- Naloxone Training Law Enforcement
- Projection from Abuse (Domestic Response)
- Mobile ID Device Training
- Advance (Alert, Lockdown, Inform, Counter, Evacuate) ALICE
- Forensic ID Booking Procedures
- Responding to victims of trauma
- Investigation of Human Trafficking
- Conviction Integrity
- Responding to LGBTQ Community
- Responding to victims with disabilities
- Responding to domestic violence calls
- Responding to male sexual assault victims
- Responding to veterans in crisis
- Cellular Phone Digital technology Investigations
- Street Survival Training
- Law Enforcement Low Light Firearms Training
- National and Regional Drug Trends
- Emergency Support Team
- Basic Homicide Investigation
- In-Synch RMS Record System Updates

BVRPD Policy Objectives

Police policies and procedures organize the daily work of a police department and provide guidance for officers' decision-making in the field. Courts and the public look to departmental policies and procedures to determine whether an officer's actions were lawful and appropriate. All of the BVRPD policies have been reviewed revised and disseminated to the agency members since January 2014 and are current with revisions and memorandums of understanding. The BVRPD strives to be compliant with the best standards and practices of law enforcement agencies.

The BVRPD adheres to the practice of updating and drafting policies and procedures thoughtfully to encourage a law enforcement environment which meets community needs and withstands public and legal scrutiny. Policy review and formulation is an active and ongoing process. The process is critical to the professional development of officers to assure guidance and compliance with the most recent case law, legal standards, and best practices in risk management and complaint reduction.

In assessing appropriate objectives and priorities for police policy formulation and service delivery to local communities it should be recognized that most police agencies are currently given responsibility, by design or default, to:

- (a) Identify criminal offenders and criminal activity and, where appropriate, to apprehend offenders and participate in subsequent court proceedings;
- (b) Reduce the opportunities for the commission of some crimes through preventive patrol and other measures;
- (c) Aid individuals who are in danger of physical harm;
- (d) Protect constitutional guarantees;
- (e) Facilitate the movement of people and vehicles;
- (f) Assist those who cannot care for themselves;
- (g) Resolve conflict;
- (h) Identify problems that are potentially serious law enforcement or governmental problems;
- (i) Create and maintain a feeling of security in the community;
- (j) Promote and preserve civil order; and
- (k) Provide other services on an emergency basis.

B V R P D I n f r a s t r u c t u r e

The BVRPD is based in a modern facility that incorporates existing technology required to house and support a modern police agency. We maintain a security video system (CCTV) providing visual security of our facilities. In addition, we have three (3) investigative audio video systems in the facility. These are used to enhance the investigative and evidence gathering capacities of BVRPD.

All patrol vehicles have been equipped with in-car video systems, capable of recording field service activities and will provide both officer safety as well as evidentiary tools and field activity accountability.

Through a grant in 2017 patrol vehicles and the BVRPD Station have been equipped with software (MACH) that allows communication with other area law enforcement agencies.

BVRPD Firearms & Less than Lethal Force Upgrades

In fiscal year 2016 the BVRPD upgraded our less lethal weapons. This followed the upgrades in 2014 and 2015 to our agencies police shotguns, patrol rifles and handguns. This has further standardized our equipment needs in patrol applications and emergency responses under a wide variety of circumstances, with enhanced capabilities to provide for greater user features for community and officer safety. In 2020 we continued to upgrade our tactical emergency response equipment to be prepared for emergency police responses.

Agency Technical Capabilities

In-Sync RMS - The BVRPD employs use of technology to facilitate the police mission. As an essential part of this process all reporting and time tracking is conducted electronically using various computer-based systems. The BVRPD has a records management system (RMS) which is a professionally designed, engineered, tested, and supported commercially available system for modern police records management. This allows the officer to report directly to the agency server from the patrol cruisers which in essence serves as the officer's office and workspace. This maximizes the time spent on patrol and minimizes the time spent obligated in non-patrol functions. This system has an automated

download of calls for service data from the Central Dispatch 911 Center. All calls for service received by BVRPD are uploaded automatically to our RMS system.

In 2019 the Department upgraded our computer network and support systems with a new server software and computer workstations. Additionally, the Department upgraded our internet access speeds. We continue to monitor our equipment and work closely with our contracted service providers.

E-Citations – Allows officer so issue citations in the field that are electronically uploaded to the Pennsylvania State Records System and to our records management system. This cuts down on the time involved with this process and lessens the change for data entry errors. The system also allows for the electronic data scan entry of driver's license and vehicle registrations, eliminating manual entry of this data.

Live Scan – To assure the accurate processing of persons arrested for offenses, the BVRPD utilizes a Live Scan inkless fingerprinting system. This is a digital system that captures suspect's fingerprints and palm prints by digital means, and instantly submits the prints for identification and comparison purposes. Within moments the officer is provided a positive identification of the suspect and has a submission of prints for comparison purposes for wanted subjects, unknown subject prints, and for prints submitted for identification from other criminal investigations. This provides both the officer and the community a greater margin of safety by assuring wanted and dangerous subjects are identified properly at the time of arrest.

MOBILE ID Scan – Through a grant from the Pennsylvania Chiefs of Police the BVRPD has obtained a RAPID-ID device which will allow officers to perform a fingerprint record – identification in the field.

CPIN – This is the digital photography component to the identification process and is interfaced with the Live Scan system as a part of the standardized booking process. This includes facial recognition capabilities, and the generation of photo arrays for identification of suspects.

CCTV – The BVRPD headquarters facility is equipped with embedded technology for digital capture of arrestees and officer interactions. This assures officers and prisoners are captured in an accurate depiction of events and treatment of persons in custody.

Smart Keys – This allows the agency to provided levels of access to specific areas of the facility and tracks movement within the facility.

Fleet Tracking – The Department utilizes a commercially available package to track, locate, and analysis movement of agency vehicles. This is a means used to reduce unsafe driving and provide for a maximum margin of officer safety. The system allows for instant location of the patrol vehicle and recall capability of travel paths, average speed, and driver behavior analysis. The system also is instrumental in providing the BVRPD fleet managers with data to schedule service for the vehicles.

The BVRPD fleet is a multi-purpose fleet that currently includes a five (5) Sport Utility Vehicles that have all-wheel drive capabilities, to assure delivery of services in a wide variety of weather and topographic environments.

Police fleet management must be knowledgeable in the selection of high quality, reliable vehicles designed to meet the demands of police service delivery. This means the selected vehicle must provide room for equipment, room for the operator's and passenger's comfort, high safety margins, and easy access to technology, while remaining economic to own and operate. The cost consideration associated with the fleet includes the cost for technology installation or transfer, fuel, markings, after market safety – prisoner restraint devices, audible systems, radios, and visual warning systems as well as secure weapons storage systems.

Fleet Services

The BVRPD maintains a diverse fleet of patrol and specialized vehicles to accomplish our agencies mission. The patrol fleet consists of marked and unmarked units for the day-to-day patrol operational function. The Department averages 120,000 patrol / road miles a year.

Operational cost of the fleet varies depending on vehicle purchase years and fuel price fluctuations. This chart provides a yearly cost comparison:

Year	Total Miles	Cost Mile with purchase price	Cost mile less vehicle purchase Price
2012	113,199	0.78	0.61
2013	197,775	0.66	0.29
2014	112,105	0.77	0.49
2015	104,513	0.83	0.53
2016	108,716	1.87	0.59
2017	108,072	1.88	0.60
2018	112,542	0.88	0.57
2019	120,871	0.90	0.56
2020	104,215	1.02	0.56
Average	120,223	1.07	0.53

The BVRPD fleet is composed of the following vehicles as of 12/31/2020:

Designation	Manufacturer	Year	Model	Type
40 *	Dodge	2017	Charger	Marked Sedan
39 *	Ford	2014	Interceptor SUV	Marked SUV
38 *	Ford	2014	Interceptor SUV	Marked SUV
37 *	Dodge	2019	Charger	Marked
36 *	Ford	2014	Interceptor SUV	Ghost Marked SUV
35 *	Dodge	2019	Charger	Un-Marked
34 *	Ford	2017	Interceptor SUV	Marked
31 *	Ford	2020	Interceptor SUV	Marked
26 **	Ford	1998	Braun Special Unit	Marked

** Denotes four (4) wheel drive.

* Denotes all-wheel drive.

The BVRPD fleet management philosophy dictates that all fleet vehicles be maintained on a consistent schedule of care. This requires that mechanical, electrical, body, and other care providers for the fleet be maintained. The BVRPD has standards of appearance that require the fleet vehicles be maintained in a clean professional appearance for all occasions. Since the inception of the agency in 2012 a plan has been developed for the rotation of fleet vehicles into and out of the patrol fleet on a pre-planned basis. The BVRPD has embedded within the fleet (5) Sport Utility Vehicles with all-wheel drive. This provides an ability to respond to service demands over widely varying terrain and weather conditions.

BVRPD Human Resource Function

The BVRPD has the ability for members to access the schedule remotely via handheld devices and computers to schedule vacation leave time, sick leave, and other time off as provided by the current BVRPA agreement. In addition to this capability all scheduling is done by electronic means, with the inclusion of court time, training time, and other impacts on scheduling completed electronically and available for remote notice and recall. The agency, by its nature, has a higher rate of risk for both worker's compensation and health insurance claims. We continue our efforts at wellness and accident avoidance to hopefully provide a lower rate of costs and higher returns for the organization from our service care providers.

Risk Reduction

Supervisors of the BVRPD periodically conduct safety inspections. The safety and cleanliness of the BVRPD facility is of high priority. These ongoing efforts cannot be minimized, we value our employees and strive to provide a safe and healthy workplace environment.

Instruction & Professional Outreach

Again Covid-19 virtually eliminated our ability to provide any public outreach. In the past the Department has provided various members of the BVRPD to become engaged in speaking at conferences or participating in the instruction of other law enforcement and community members. This includes a wide variety of topical material including both administrative and operational areas of instruction. In addition to instructor and speaker roles, BVRPD members participate on various committees and serve in other professional leadership roles. We look forward to the opportunity to continue these activities when it is safe to do so.

BVRPD 2020 Municipal Allocations)

The BVRPD currently offers full police services to the communities of East Buffalo Township and Lewisburg Borough. The following were the cost allocation percentages by municipality, of Police Protection Unit (PPU) distribution and the number of assigned officers based on that PPU distributions.

The PPU allocation was determined by the Intergovernmental agreement and was based on research studies of the Regional Police Committee during the formation stages. As a result of reviewing the calls for service volumes, population, crime statistics, patrol miles. From this the allocation of PPU's were originally distributed at 52% for East Buffalo Township and 48% for Lewisburg Borough. In 2020 East Buffalo Township requested only a 50.70% portion of the available PPU allocation.

2020

Municipality	Current Percentage Allocation	Current Number of PPU's	Number of Officers Assigned (current)
East Buffalo Township	50.70 %	25.55	7.91
Lewisburg Borough	48.00 %	24.15	7.48
Not Assigned	0.30 %	0.61	.19
Totals	100%	50.32	15.58

Definition of Police Protection Unit Cost

The responsibility of the Board of Commissioners is to ensure that municipalities are compensating the police department at the same rate; that being said, the operational component (the police department) of the Board of Commissioners is tasked with insuring that each of the municipalities receives the police services they purchase.

In 2017 the Commission modified the billing process and now municipalities are billed monthly for their portion of actual operational cost of the BVRPD, if the monthly fund balance exceeds \$ 400,000.00.

Member municipality pay for services they receive. Every municipality purchase units at the same cost. A unit (properly called a police protection unit or PPU) is an increment of time based on 10 hours of police service per week X 52 weeks in a year. Note: Each of the participating municipalities enjoys 24 hours per day, 7 days per week response to all emergency calls for police assistance. The hours purchased by a municipality include all departmental administrative time, (vacations, sick leave, training, workers Compensation, etc.), investigative, patrol and community policing time. All time purchased is tracked daily and weekly to ensure each municipality is receiving their allotted time.

Available Police Protection Unit Calculations

Available PPU's are determined by taking the available hours of staff members and dividing that by 520 hours (hours in one PPU). This determines the allocation assignments for the year. The chart below reflects the anticipated PPU's available in 2020 (50.32) Therefore the allocations are 25.55 for East Buffalo Township (50.70%) and 24.15 for Lewisburg Borough (48.00%). The average officer will account for approximately 3.27 PPU's per year.

Last Name	Total Hours	Vacation	Personal	Holidays	Sick	Other	Training	Total	Available Hours

Billing and
Funding
Change

In the negotiation phases of the formation of the Buffalo Valley Regional Police Department a lot of time and effort was placed on cost analysis and future cost projections. At that time, a goal of five percent (5%) municipal service cost rate increases for the first five years of BVRPD operation was set. 2020 was the ninth year of operations. The actual municipal percentage cost rate increases have averaged 1.7%. Some of this was due to early grant funds that assisted in offsetting operational cost. Other factors were reductions in contracted personnel benefit costs.

Cost Containment Advantages of Regional Policing

In microeconomics, economies of scale are the cost advantages that enterprises obtain due to size, with cost per unit of output generally decreasing with increasing scale as fixed costs are spread out over more units of output. Often operational efficiency is also greater with increasing scale, leading to lower variable cost as well. Economies of scale apply to a variety of organizational and business situations and at various levels, such as a business or manufacturing unit, plant, or an entire enterprise. This accounts for the stabilization and containment of costs associated with the administration of police services on a regional basis.

The BVRPD has engaged in a series of budget review and pension oversight activities throughout the fiscal year, the results indicate a savings for the participating municipalities.

Advantages of Regional Policing

- Increased police service providing
- Increased police staffing levels.
- Increased specialization of services
- Focused police response to problem solving.
- Cost containment
- Budget Development and examination as an ongoing process
- Reduction / Elimination of duplicated services
- Uniformity and standardization of policy
- Increased use of technology
- Increased intergovernmental communication.
- Increased intergovernmental cooperation.
- Increased planning for law enforcement services
- Increased accountability of police service delivery to governmental officials
- Increased training and career development for officers in the agency
- Upgraded equipment and technical applications to increase officer safety margins.
- Increase interaction between BVRPD agency members and the community / general public.
- Increased public outreach and media programming.
- Decreased risk exposure and agency risk factors.
- Increased administrative support and communication with member municipalities.

Administrative Areas of Specialization

The BVRPD employs a full time Administrative Assistant that reports directly to the Office of the Chief of Police. This professional is responsible for the execution of process as directed by the Chief of Police. This includes all aspects of generally accepted business and accounting practices consistent with best practices for both business and government.

- Full-time administration
- Full-time planning
- Policy Development
- Policy Review
- Risk Identification
- Risk Reduction
- Full-time professional staff support, such as, clerical, personnel, fiscal, computer, etc.
- Computerized records keeping in following areas: Field operations such as Uniform Crime Reporting
- Citation control, Evidence control, Crime Analysis, Case Management, etc.
- Administrative operations such as budgeting, personnel, payroll, court liaison coordinator, and planning
- Command Services: Operations, investigations, in-field inspections
- Supervisory Services:
- Grant Application
- Grant Administration
- Grant Accountability Administration
- Payroll function
- Audit and accountability requirements
- Cost containment
- Strategic Planning

Measurable Activity

This portion of the annual report depicts the activities of the BVRPD for selected work measures. The comparison of data is one measure of agency performance and provides a standard for accurate models for agency use in planning, adjusting and reporting.

Public Outreach Initiatives

The BVRPD has a philosophy of being engaged in the community assisting and being available for appearances at community functions. Covid-19 extensively put the brakes on our ability to do so. Prior to restrictions we were involved with some activities.

- ❖ Lewisburg Ice Festival Events
- ❖ Lewisburg Arts Festival Events Cancelled
- ❖ Emergency Services Day Cancelled
- ❖ Union County 4th July Celebration Cancelled
- ❖ Camp Cadet Cancelled
- ❖ Buffalo Valley Recreation Events Cancelled
- ❖ National Night Out Cancelled
- ❖ Woolly Worn Festival Cancelled
- ❖ Walk – Bike to School Day Cancelled
- ❖ School Bus Safety Day
- ❖ Girls on the Run Cancelled
- ❖ Lewisburg Late Night Shoppers

Our Staff is hopeful that 2021 gives us the opportunity to again resume assistance and attendance at these worthwhile Community Events.

School & Community Safety Initiatives

As an important part of the BVRPD patrol services best practices, officers are encouraged and expected to stop at each school within their assigned patrol zone and enter the building to conduct a safety / patrol check. In addition, the officers are stationed in school zones for traffic safety purposes during the arrival and departure of students while the school safety zones are activated. We also visit many of the Day Care facilities and provide safety programs.
